

Project Name:

Product & Layout Database

What was the problem

- A centralized area to review layout details did not exist.

Web Application Solution

- Develop an online database that gave access to users that includes:
 - Designer names and contact information;
 - Papers used in layout including images, colors, manufacturer details;
 - Embellishment details;
 - Tools used in the creation of a layout;

Created For:

The Forever Moments

<http://www.theforevermoments.com>

About Company:

A company that's lots of fun to work for, helps you hold on to those perfect moments of life, and helps fund our kids' schools and organizations in the process. The creation of custom layouts of life's important moments is the basis of The Forever Moments.
